

PUBLIC NOTICE

Richmond Power & Light Company

PUBLIC NOTICE is hereby given, pursuant to 170 Ind. Admin. Code 1-6-6, that on or about April 8, 2011, the City of Richmond, by its municipal electric utility, Richmond Power & Light Company, expects to file with the Indiana Utility Regulatory Commission, under its 30-day filing procedure, a request seeking Commission approval of: (1) a new street lighting rate to be added to RP&L's Rate Schedule N, Street Lighting Service, as well as two new municipal street lighting rates to be added to Rate Schedule M, Municipal Street Lighting Service; and (2) an amendment to RP&L's Rate Schedule R governing residential electric service. RP&L proposes to add to Rate Schedule N a new rate for "Twin 70 Watt Sodium Vapor" street lights. RP&L also proposes to add to Rate Schedule M new rates for "400 Watt Sodium Vapor" and "1000 Metal Halide" street lights. The proposed amendment to Rate Schedule R incorporates language intended to clarify the manner in which RP&L will determine whether a customer will be provided service under residential or commercial electric rates. Specifically, clarifying language has been added to Rate Schedule R to indicate that residential rates apply to "residential customers including rural customers for all domestic uses in individual private customer-occupied residences or dwellings and their appurtenances, when all service is taken through one meter." Rate Schedule R provides that "[w]hen service is supplied to a residential dwelling unit where the use is primarily for the accommodations of roomers or boarders, the service will be provided under Rate Schedule CL, the commercial lighting rate schedule, unless separate circuits are furnished by customer to permit the Utility to separately meter and bill the residential and commercial uses." The date by which approval of the filing is expected is on or about May 9, 2011. The contact information for the persons to whom an objection should be made is below:
